Northeast June Acreage Report and US Summary:

- Corn
- Barley
- Hay
- Tobacco
- US Summary
- Oats
- Winter Wheat
- Soybeans
- Potatoes

Corn Area Planted for All Purposes and Harvested for Grain – Northeastern States and United States: 2017 and 2018

State	Area planted for all purposes		Area harvested for grain	
	2017	2018	2017	2018 ¹
	(1,000 acres)	(1,000 acres)	(1,000 acres)	(1,000 acres)

United States Summary

Corn Planted Acreage Down 1 Percent from 2017

Soybean Acreage Down 1 Percent

All Wheat Acreage Up 4 Percent

Corn: The 2018 corn planted area for all purposes is estimated at 89.1 million acres, down 1 percent from last year. Growers expect to harvest 81.8 million acres for grain, down 1 percent from last year.

Soybeans: The 2018 soybean planted area is estimated at 89.6 million acres, down 1 percent from last year. Compared with last year, planted acreage is down or unchanged in 14 of the 31 major producing States. Area for harvest, forecast at 88.9 million acres, is down 1 percent from 2017.

All wheat planted area for 2018 is estimated at 47.8 million acres, up 4 percent from 2017. This represents the second lowest all wheat planted area on record since records began in 1919. The 2018 winter wheat planted area, at 32.7 million acres, is up less than 1 percent from last year and up slightly from the previous estimate. Of this total, about 23.2 million acres are Hard Red Winter, 5.89 million acres are Soft Red Winter, and 3.62 million acres are White Winter. Area planted to other spring wheat for 2018 is estimated at 13.2 million acres, up 20 percent from 2017. Of this total, about 12.7 million acres are Hard Red Spring wheat. Durum planted area for 2018 is estimated at 1.89 million acres, down 18 percent from the previous year.

Oats: Area seeded to oats for the 2018 crop year is estimated at 2.89 million acres, up 12 percent from 2017. Compared with last year, planted acreage is up or unchanged in 23 of the 28 major producing States. Increases of 20,000 acres or more are estimated in Alabama, Colorado, Georgia, Kansas, Michigan, Minnesota, Nebraska, and Wisconsin. Area for harvest, forecast at 1.01 million acres, is up 26 percent from 2017.

Barley: Producers seeded 2.55 million acres of barley for the 2018 crop year, up 3 percent from the previous year. Harvested area, forecast at 2.05 million acres, is up 5 percent from 2017. In Montana, producers seeded 730,000 acres of barley, down 5 percent from the previous year.

Twenty-eight percent of the Nation's barley acreage had reached the heading stage by June 24, three percentage points ahead of the previous year but 4 percentage points behind the 5-year average. On June 24, eighty-three percent of the Nation's barley acreage was rated in good to excellent condition, 23 percentage points above the same time the previous year.

Winter wheat: The 2018 winter wheat planted area is estimated at 32.7 million acres, up less than 1 percent from last year and up slightly from the previous estimate. This represents the third lowest planted acreage on record for the United States. Of the total acreage, about 23.2 million acres are Hard Red Winter, 5.89 million acres are Soft Red Winter, and 3.62 million acres are White Winter. Record low planted acreages are estimated in Louisiana, Nebraska, Utah, and West Virginia.

Area harvested for grain is forecast at 24.8 million acres, up less than 1 percent from the previous forecast but down 2 percent from last year. If realized, this will represent a record low for the United States. Harvested acres are down from last year across much of the Great Plains, the primary wheat-producing area, due to the reduction in planted acreage. Record low harvested acreage is expected in California, Louisiana, and West Virginia.

Tobacco: United States all tobacco area for harvest in 2018 is expected to be 303,680 acres, down 6 percent from 2017. Flue-cured tobacco, at 204,500 acres, is 2 percent below 2017 and accounts for 67 percent of this year's total expected tobacco acreage. Total light air-cured tobacco type area, at 71,200 acres, is down 15 percent from 2017. The burley portion of light-air cured tobacco, at 69,800 acres, is down 14 percent from last year.

Fire-cured tobacco, at 18,080 acres, is down 6 percent from 2017. Dark air-cured tobacco, at 7,500 acres, is down 1 percent from last year. Cigar filler tobacco, at 2,400 acres, is up 33 percent from the previous year.

Summer potatoes: Growers planted an estimated 64,200 acres of summer potatoes in 2018, down 6 percent from 2017. Harvested area is forecast at 61,500 acres, 6 percent below 2017.

Fall potatoes: Growers planted an estimated 911,700 acres of fall potatoes, up slightly from 2017. Harvested area is forecast at 904,400 acres, slightly above 2017.

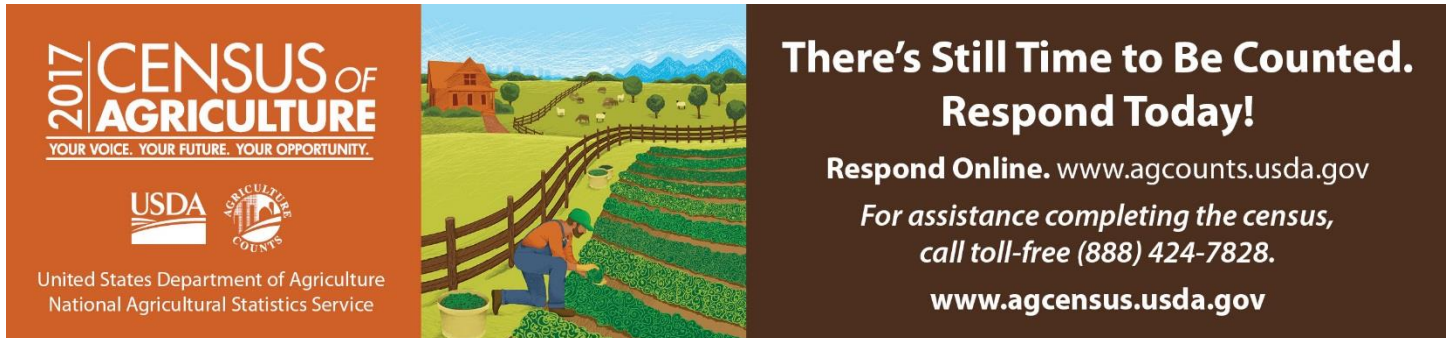

Idaho's winter weather varied across the State and planting was slow to start. As of June 24, ninety-six percent of the potato crop had emerged, slightly behind the 5-year average of 97 percent. Winter and spring precipitation in Washington was good. As of June 24, the crop had emerged, and reported condition was 1 percent very poor, 1 percent poor, 9 percent fair, 84 percent good, and 5 percent excellent. North Dakota's planting began in early May, behind the 2017 pace and the 5-year average, but advanced ahead of the average half-way through planting season. Ninety-eight percent of the crop had emerged as of June 24, one percentage point behind the previous year.
